

# Advertorials

Advertorials are an excellent way of promoting specific products. You might, for instance, be a Mobile Operator wanting to highlight a new mobile or a bank wanting to push a new insurance product. Whatever you want to promote it is easy and targeted through the FoneTastic Network.

## **Example of Advertorial:**

“Mobile People” are looking to push into the PDA market. They have decided to do a number of different campaigns through the FoneTastic Network. As part of the campaign they have designed their own advertorial:

**Stay Mobile, Stay Productive, Stay Connected**

**Compaq iPAQ 3760**

The iPAQ Pocket PC has proved itself to be a desirable business and leisure tool. This state of the art access and computing device combines stylish good looks with a comprehensive feature set to boost your productivity and your enjoyment.
